

Keeping in mind that on-land services are not a task to be undertaken lightly, together with freight services it make our service fully logistics. We expand our interest in customs clearance, door to door service and our customers' trading business. We really want to accompany our customers from the first moment they establish their business. SAFI is not only dealing with processing cargo and project cargo (the popular industry in Viet Nam at the present time) but is also

jumping into exhibition cargo handling. Experience in Customs procedures and skill in exhibition operations helps us to make our exhibition service more and more sensitive to customers' requirements. This is particularly well done in the Ha Noi area.

With right orientation, we are soon well known in the market as the most reliable handling agent, high-quality and on-time service provider and, more than that, a sophisticated requirement solver.

How are we able to achieve the above?

SAFI was one of the companies who took part in setting up the network of Customs Brokers in Viet Nam and was one of the firsts to be granted a Customs Brokers License.

SAFI have qualified people dedicatedly assigned to do export and import customs clearance for factories located in those areas in Ha Noi, Hai Phong, Binh Duong, Dong Nai and Ho Chi Minh City. SAFI Ho Chi Minh City has offices in VSIP, Binh Duong and AMATA, Dong Nai.

At the time being, SAFI keeps pace with the development of investments to Viet Nam. Big investors in Viet Nam as our customers are Fujitsu Computer Products of Viet Nam Inc., YKK Viet Nam Co., Ltd, MHI Service Viet Nam Co., Ltd, TOKIN Viet Nam Co., Ltd, NIDEC COPAL Viet Nam Co., Ltd, Toyota, Yamaha, Ford, Piaggio, Sumi -Hanel Wiring Systems Co., Comvik International AB and As'ty In c...

Meeting our customer's difficult requirements is always our endeavour.
